

DEE Is Pam here?

ACE Nope – but sometimes she plays Ms. Pac-Man.

DEE Thanks.

(DEE starts to leave)

ACE (loudly) I can play Ms. Pac-Man, too! You're the chic that was born here. I'm Ace. I've been to every continent. Have you ever met someone who's been to every continent?

DEE Mydad. Mymom. My–

ACE Okay fine, but here's a twist on that. And I'm not trying to be a creeper. I'm just sharing facts. One: I've been to every to continent. Two: I've made love on every continent. Three: I have made love with someone that was born on every continent. Except this one. I got to meet Emilio Palma – the Argentinian dude who was the first person born in Antarctica. But I don't swing that way. I thought about it. For this. But ultimately, I dragged my heels and it didn't happen. You're the only other person I've met who was born here.

DEE There's only twelve of us in the history of the world, so.

ACE There's eleven, actually. You're the youngest.

DEE Why do you want to do that? That's a really specific thing to want to do.

ACE It started with going to all the continents. I did that. Then I made love on all the continents. Then I was like, now what?

(Beat) Can I buy you a shot?

DEE No, thanks.

ACE How about a beer?

DEE That's okay.

ACE You want some hand lotion?

DEE What?

ACE You know, this is a desert, right? It's as dry as the Sahara here, don't be fooled by the snow. Drink your water. Use your lotion. You see how smooth my hands are? How much water have you had since you landed?

DEE I don't know.

ACE Wrong answer, Princess Dee! Do you have a headache?

DEE . . . Yeah.

The Royal Society of Antarctica 19 October 1, 2015

ACE That's why. You gotta drink as much water as you can. Here.

(ACE holds his Nalgene water bottle out to DEE) If you don't drink like five of these right now, your headache will never go away and you'll be jetlagged forever. Take this. I have an extra.

DEE That's okay.

ACE Don't fight the Ice. You won't win. You gotta play by her rules.
Drink it.

(DEE starts chugging ACE's Nalgene. ACE speaks as she drinks) I cannot believe you're actually hot – not just Ice hot. When we see chicks here – it's like – is she hot? Or is she just Ice hot? It can get confusing because, you know, the pickins are slim. You start to think *everyone* is hot. You start to think, "Beauty is just a light switch away." That's what we used to say in med school. So here we say, "Beauty is just a black-out curtain away." During the summer you have to use black-out curtains. And I have really good black-out curtains in my room. You want to see them?

DEE No, thanks.

ACE Maybe tomorrow?

DEE Nope. Thanks for the water.

(DEE holds the empty Nalgene out to ACE)

ACE You can keep my Nalgene – please. I have an extra.
